2021 AFOB VIRTUAL CONFERENCE

About 2021 AFOB Virtual Conference

We invite you to the 2021 AFOB Virtual Conference, which will be held on 1-4 November 2021.

Asian Federation of Biotechnology (AFOB) promotes cooperation, on scientific grounds, between the scientists from academia and industry in Asian region, for the general advancement of biotechnology as an interdisciplinary fields of research and as means of bringing the scientific development to industrial level.

We have been facing difficulties in keeping the activity of the AFOB as efficient as how it used to be due to the pandemic of COVID-19. But for continuous activity, the AFOB Divisions were invited to participate in academic activities and promote the research cooperation.

The scientific program is organized by the Organizing and Scientific Committee of the 2021 AFOB Virtual Conference, based on AFOB Division and COVID-19 TF activities.

IMPORTANT DATE

Abstract Submission	01-17 SEP.
Abstract Submission (Extension of the deadline)	17-30 SEP.
Registration	01- SEP.
E-poster & Pre-recorded video file Submission	01-05 OCT.

PLENARY SPEAKERS

Prof. Shuichi Yamamoto

Director, Biomedical Engineering Center (YUBEC) Yamaguchi University, Tokiwadai, Ube, 755-8611, Japan

Asian Pacific Confederation of Chemical Engineering Past President World Chemical Engineering Council Member AFOB Bioprocess and Bioseparation Engineering Division Chair.

Prof. Ian Henderson

Director of IMB

has had multiple roles serving in government panels, research councils, professional societies, journals, and universities, and is currently an international member for the UK REF2021 (UoA5 Biological Sciences) exercise

ACADEMIC PROGRAM

It consists of
11 Divisions & 1 Special session.

- Agricultural and Food Biotechnology (AFB)
- Applied Microbiology (AM)
- Biocatalysis and Protein Engineering (BPE)
- Bioenergy and Biorefinery (BB)
- Biopharmaceutical and Medical Biotechnology (BMB)
- Bioprocess and Bioseparation Engineering (BBE)
- Environmental Biotechnology (EB)
- Marine Biotechnology (MB)
- Nanobiotechnology, Biosensors and Biochips (NBB)
- Systems and Synthetic Biotechnology (SSB)
- Tissue Engineering and Biomaterials (TEB)
- COVID-19 Special Session

REGISTRATION

Registration Fee

Category	Standard (From 1 st September to 30 th September 2021)	Late (From 1 st October 2021)
Regular	USD 100	USD 125
Student	USD 50	USD 75

PROGRAM SCHEDULE

Time
Korea/Japan Standard Time

DAY 1 November 1 (Monday), 2021

10:00-10:30	Opening Ceremony	
10:30-11:30	Plenary Lecture (I)	
11:30-13:00	Break	
13:00-15:00	Biocatalysis and Protein Engineering (BPE) Session (I)	Tissue Engineering and Biomaterials (TEB) Session (I)
15:00-15:30	Break	
15:30-17:30	Biocatalysis and Protein Engineering (BPE) Session (II)	Tissue Engineering and Biomaterials (TEB) Session (II)
17:30-18:30	Poster Session	

DAY 2 November 2 (Tuesday), 2021

10:00-12:00	Agricultural and Food Biotechnology (AFB) Session	
12:00-13:00	Break	
13:00-15:00	Bioprocess and Bioseparation Engineering (BBE) Session	Biopharmaceutical and Medical Biotechnology (BMB) Session
15:00-15:30	Break	
15:30-17:30	COVID-19 Special Session	
17:30-18:30	Poster Session	

DAY 3 November 3 (Wednesday), 2021

10:00-12:00	Environmental Biotechnology (EB) Session	
12:00-13:00	Break	
13:00-15:00	Nanobiotechnology, Biosensors and Biochips (NBB) Session	
15:00-15:30	Break	
15:30-17:30	Marine Biotechnology (MB) Session	
17:30-18:30	Poster Session	

DAY 4 November 4 (Thursday), 2021

10:00-12:00	Applied Microbiology (AM) Session	
12:00-13:00	Break	
13:00-15:00	Bioenergy and Biorefinery (BB) Session	
15:00-15:30	Break	
15:30-17:30	Systems and Synthetic Biotechnology (SSB) Session	
17:30-18:30	Plenary Lecture (II)	
18:30-19:00	Closing Ceremony
